Plants Make All the Difference

Why Are Plants Important?

A beautiful, healthy plant makes a statement. It says that the business cares enough to beautify their space and provide fresh, healthy air for their employees and guests. It says that the highest quality products and services are offered here.

Plants don't just look beautiful, they promote well being. Live plants have been shown to provide up to:

- 12% productivity increase
- 38% fatigue decrease and
- 60% reduction in absenteeism

What's the Cost?

One floor plant, with professional maintenance, costs about \$1 per day.

How Many Plants Will I Need?

Plants can be used to direct traffic, separate spaces, and provide living art. Whether your office needs a single statement piece or a privacy screen, consider adding at least one plant per every 100 square feet to enjoy the health benefits of plants.

What about Maintenance?

Professional plant care is critical to keeping plants healthy, attractive, and vibrant. We offer a service plan to fit your schedule, allowing you to enjoy your plants with confidence.

Online Rental Packages Make it Easy!

Our 5-Plant Rental Package is just \$159 per month. Get one package or several, to instantly add plants and fresh air to your office, lobby, or reception.

Select from: Silver, Matte Black, Metallic Espresso, or Gloss White containers.

Set-up, delivery, warranty, and maintenance are all included. Order online, then sit back, relax, and breathe fresh air!
